CAREER SUMMARY

Detail-oriented Full Stack Developer with 3 years of experience in **Java, Spring Boot, MERN stack**, and **Angular**, delivering scalable and high-performance web applications. Skilled in creating **RESTful APIs, integrating databases,** debugging issues, and building clean, maintainable end-to-end solutions. Committed to continuous learning, teamwork, and delivering high-quality software that meets client and business expectations.

PROFESSIONAL EXPERIENCE

Inmakes Infotech Pvt. Ltd— Kochi, Kerala **JUNE 2025 -Present**

MERN Stack Developer.

- **Engineered and maintained scalable** MERN stack applications using **MongoDB, Express.js, React.js, and Node.js,** focusing on performance, reliability, and maintainability.
- **Partnered with cross-functional Agile teams** to deliver features on time by **designing RESTful APIs**, optimizing React component rendering, and improving database query efficiency.
- **Enhanced application security and system stability** by implementing secure authentication, role-based **access control (RBAC**), and resolving production-level front-end and back-end issues following clean code and modular architecture principles**.**

Claysys Technologies Pvt. Ltd— Kochi, Kerala **January 2022 -November 2022**

Software Engineer.

- **Provided end-to-end technical support** for U.S. credit union clients using **Symitar Power On**, ensuring rapid issue resolution, system reliability, and high customer satisfaction.
- **Automated data workflows and reporting** through Power On scripting while diagnosing functional and technical issues related to system customization and application usage.
- **Collaborated with internal stakeholders** to deliver compliant, client-specific solutions, maintaining service quality standards, accurate documentation, and minimal service disruption.

S-Technologies Pvt. Ltd— Kochi, Kerala **October 2018 -November 2020**

Java Developer.

- **Implemented Spring Boot–based Java solutions** with RESTful APIs following **MVC architecture**, enabling scalable microservices and efficient MySQL database integration.
- **Built interactive user interfaces** using Angular and **Java Swing (J Frame)** while enhancing application performance through query tuning, debugging, and code optimization.
- **Addressed technical and functional challenges** by contributing to design discussions, participating in code reviews, and applying strong analytical and problem-solving skills in line with quality standards.

SKILLS

Programming Languages: Java, JavaScript, TypeScript.

Frameworks & Libraries: Angular,React.js, Node.js, Express.js, MongoDB, Mongoose, SQL.

Web & Tools: HTML5, CSS3, REST APIs, Postman, Git, GitHub, Visual Studio Code, NPM, Jira.

PROJECTS

- **Garage Management System** – Built a web app for managing vehicle services, customer details, and appointments; **integrated JWT authentication.**
- **Hospital Management (Node.js)** – Responsive UI with user authentication and integrated full **CRUD capabilities.**
- **Netflix Clone Web App –** Developed an online streaming platform with user authentication, content browsing, and video playback; integrated **MongoDB** for content management.

EDUCATION

- Master of Computer Applications (MCA), Mahatma Gandhi University, Thiruvalla (64%) 2015-2018
- Bachelor of Computer Science, University of Calicut, Pulpally (60%) 2012-2015
